## HALLOWEEN SAFETY TIPS

*Help keep your trick-or-treaters happy and safe this Halloween with these important tips:*

- Carving jack-lanterns? Use battery operated candles and remember to turn them off!
- Go trick-or-treating in a group and communicate where you will be going.
- Add reflective tape to costumes and trick-or-treat bags.
- Use well-lit streets and always use the sidewalk.
- If no sidewalk is available, walk at the far edge of the roadway facing traffic.
- Do not cut across yards or use alleys. Use designated crosswalks.
- Don't assume you have the right of way. Drivers may not see you!

**FREE TO THE PUBLIC**

## BTU to Perform Territory-Wide Audit of Field Assets

Bryan Texas Utilities (BTU) has contracted with Davey Resource Group (DRG) to perform an audit of field assets, including poles, transformers, conductor, pedestals, and service-drops, throughout the entire BTU system – including Brazos County, and parts of Burleson and Robertson counties.

To complete this work, DRG employees will need to access all BTU owned poles and equipment located on and around private property, including behind privacy fences. Employees can be identified by the logo on their trucks, bright yellow uniforms, and official badges. They will also be provided with vehicle decals signifying them as a "BTU Contractor". Their presence on private property is solely for the purpose of performing an inventory of BTU assets, and should cause minimal, if any, disruption.

DRG Crews will work throughout BTU's service territory over approximately 12 months to complete the audit, and will be performing most of their work during regular business hours, Monday through Friday. Postcards will be mailed to customers within one to two weeks of contractors starting work in their area in an effort to keep residents informed of their presence.

For additional information, please contact BTU at: 979.821.5700.

# HOWL-O-WEEN

- Fertilizers
- Motor Oil
- Gasoline
- Antifreeze

#### Items that will NOT be accepted:

- Tires
- Freon Containing Units
- Ammunition
- Radioactive Waste
- 55 Gallon Quantities

## CONSERVATION TIPS

### Energy Savings Tip:

Check for air leaks! Even small air leaks can wreak havoc with your heating and cooling bills. For example, a 1/8" gap under your front door lets in as much air as if the door had a 2 1/4" hole.

### Water Savings Tip:

Use your leaves! Shredded leaves can be used as mulch for an extra kick of nutrients in your plant/tree beds. Utilizing leaf mulch also maintains a uniform soil temperature, and prevents frost upheaval caused by thawing and freezing.
