FOOD FOR FAMILIES

Hunger is a reality that many in the Brazos Valley community do not realize is a problem in our schools, among our elderly, and maybe even in some of our own homes. The vision of The Brazos Valley Food Bank (BVFB) is to have a hunger-free Brazos Valley but this can only be accomplished through the service and support of others in the community. Each year, KBTX hosts the Food for Families Food Drive in December. This day-long event provides locations across the Brazos Valley where volunteers receive non-perishable food, monetary, and/or toiletry donations for the BVFB to distribute to food banks in the six-county area, all reported on live from the donation sites.

Bryan Texas Utilities has been a longtime supporter of the vision of the BVFB in creating a hunger-free Brazos Valley. BTU employees volunteer to take the first shift of sorting and unloading donations beginning at 5 AM at the Brazos Center followed by the presentation of a monetary donation. December weather can be unpredictable in Texas, but the show must go on. Therefore, the Food for Families Food Drive has been successful throughout the years despite rain, sleet, and snow. The dedication to service and care for fellow citizens that our community exhibits is unmatched and drives BTU to continue to serve our community. Please join us in alleviating hunger in the Brazos Valley at the 23rd Annual Food for Families Food Drive on December 5, 2018.

The following locations will be accepting donations on **December 5th:**

- **Brazos Center** (Bryan)
5 AM - 7 PM
- **Kimbro Center** (Madisonville)
6 AM - 7 PM
- **Mid-South Synergy** (Navasota)
6 AM - 7 PM
- **Navasota Valley Electric Coop** (Franklin)
6 AM - 7 PM
- **St. Mary's Parish Gym** (Caldwell)
6 AM - 7 PM

CONSERVATION TIPS

Energy Conservation Tip:

Use LED holiday lights! They are at least 75% more efficient and last up to 25 times longer than traditional incandescent lights. By using LED holiday lights, you can be at ease knowing that you won't be spending a bundle to keep those lights on.

Water Conservation Tip:

Check to see if your faucets have aerators. If they don't, install them! You'll never notice the difference, and you'll cut your sink water consumption in half.
