# SUMMER SAFETY

LAKE BRYAN

*Summer is in full swing bringing fun in the sun and some toasty temperatures. Don't forget to follow these summer safety tips when spending time outdoors to keep you and your family happy and healthy.*

## USE SUN PROTECTION

At one time or another we have all had a sunburn. It stings for a couple of days and then may itch or peel, an annoying reminder of a fun day outside. However, the sun's ultraviolet rays can cause longer lasting damage in the form of skin cancer. To protect yourself it is important to choose the best sunscreen and apply it as directed. The American Academy of Dermatology recommends using a sunscreen with an SPF of 30 or higher that is water resistant. Also, make sure to apply the sunscreen to all exposed skin 15 minutes prior to going outdoors; it takes this long for your skin to absorb the product and protect you, and again every two hours. You can also wear long sleeves and pants, hats, and sunglasses to protect yourself.

## KEEP HYDRATED

It is important to keep yourself hydrated during these warm months. When heading outdoors, bring along a couple of liters for every person, even if you are just going for an afternoon. Make sure to stop frequently to rest and take a drink in the shade. While drinks that are marketed to aid in hydration can be useful, they do not replace the need for water.

## AVOID POISONOUS PLANTS

Learn to recognize poison ivy and poison oak. These plants are easy to miss when hiking, fishing, or playing outside, but they can pack a punch if you brush up against them. To avoid an uncomfortable skin reaction, remember the phrase "leaflets three, let them be." Poison ivy and poison oak both have a triple-leaf structure that is easy to identify.

## Little GIANTS

Come and Help Us Celebrate  
NATIONAL PARKS & RECREATION MONTH

DRIVE-IN MOVIE: **LITTLE GIANTS**  
**THURSDAY, JULY 11**  
BRYAN REGIONAL ATHLETIC COMPLEX | 6:30 PM – 10:30 PM

Movie - Little Giants / Movie starts at dusk / Entrance: \$5 per vehicle / Vending concessions available

## CONSERVATION TIPS

### Energy Conservation Tip:

Want outdoor lighting? Choose energy efficient LED products and fixtures for pathways, steps and porches. Many offer features like motion sensors and automatic daylight shut-off.

### Water Conservation Tip:

Older showerheads and faucets can use more water than is needed. Replace them with low-flow faucets and aerating showerheads.
