# EXPLORE THE GREAT OUTDOORS

**LAKE BRYAN IS A FAVORITE AMONG NATURE LOVERS AND ANGLERS.** The Texas Parks and Wildlife Department (TPWD) fertilizes the water annually to improve vegetation and fish habitat. The Lake is stocked with a variety of fish including largemouth bass, catfish, crappie, tilapia, carp and sunfish. TPWD recently stocked Lake Bryan with hundreds of thousands of fingerling length redbird. Lake Bryan covers 829 acres with a maximum depth of 45 feet.

With more than 20 miles of hiking and biking trails, Lake Bryan is also a local favorite for bikers, bird watchers, and naturalists alike. There are trails ranging in difficulty for your choice of a leisurely or more challenging ride and many places to observe wildlife.

**Host an event at the pavilion, visit for the day, or stay a while at either our RV sites or traditional camping sites!** Both are in close proximity to grills, picnic tables, and trash receptacles.

## CONSERVATION TIPS

### Energy Conservation Tip:

Installing white window shades, drapes, or blinds can help reflect heat away from the house. Be sure to keep curtains on the south- and west-facing windows closed during the day to keep your home cooler.

### Water Conservation Tip:

Drip irrigation is a great way to apply water directly to the roots of trees and shrubs, where it is needed most.
